

Livi's Notes for Me:

- Color contrast mostly works but a few text/background combos could be stronger.
- Zooming to 200% is fine everything stays readable.
- Visual hierarchy is clear. Headings, navigation, and content are easy to see.
- Keyboard navigation works well.
- Typography is readable and fits the overall style. Some headings/text could be a little clearer.
- Overall design reflects your identity clearly.
- Minor improvements: tweak a few colors for better contrast, make sure all interactive elements have obvious focus.

My Notes for Livi:

- Color contrast is good, just a couple areas could be stronger.
- The site is readable at 200% zoom.
- Visual hierarchy is clear and easy to read.
- Navigation works with the keyboard.
- Typography is readable and complements the style.
- Design communicates identity effectively. Could add a little more design.
- Suggestions: small tweaks to spacing, double-check design has all creative details wanted included.
